About Yiping

I am interested in many different kinds of work, including but not limited to websites, games, animations, and films.

I am from Beijing, China, but I came to the US to study in middle school, so I can say that I grew up in two different cultures, and both of them have a great influence on my work.

I am also a video content creator who currently has 180 k+ times of play on my Bilibili channel.

Education

University: Parsons School of Design
