 Aug 2021 - Present

- Help students and faculties setting up their file for 3D printing.
- Operating the 3D printers for print.

Interests

Games Reading Journaling Traditional Asian Art Interior Design Dance

I am a UI/UX designer, a creative technologist, and a learner who is interested in all areas.

I am from Beijing, China, but I have studied in the US since middle school. I grew up in two different cultures, and both of them have a great influence on my work. I pay attention to usability and accessibility, and wish to practice the usage of elements of Chinese traditional art in the modern way and combine elements from different cultures. I am also a fan video content creator who currently has 180k+ times of play on my Bilibili channel.
